

21st Century GameChangers is a powerful development course aimed at producing tested, proven people who can stand in the Presence of God and step into their truest identity as warriors and champions.

- Jane Hansen Hoyt

The messages of *21st Century GameChangers* were first taught to a select group of Aglow leaders in the summer of 2013 with the intention that the teachings would go viral. Since that event, *GameChangers* groups have formed around the world to discover more fully what it means to be a *GameChanger* in today's world.

The messages are rooted in the New Testament teachings of Paul who urged the people of his day to live out of the new life given to them after accepting the complete work of Jesus Christ into their lives. 2 Corinthians 5:17 says, *Old things have passed away and all things have become new.* Discover how you are known in Heaven. Understanding that God is not looking at the mistakes in your life, but looking at Christ living in your heart will set you free from the lies shouted to stop you from walking in the fullness of freedom that living as a child of the King brings. God never intended for us to live on leftovers like the prodigal son. He intends that we live out of our Kingdom experience. We invite you on this journey of great exploration!
